

# TR110 muWS on Strangeness and related topics

ECT\*, Trento, Dec. 5 and 6, 2103

---

Talks: 30 min plus 30 min discussion (guideline)

## Thursday, Dec. 5

### **15:00 Stefan Petschauer**

Effective Lagrangian for multi-baryon interactions

### **16:00 Johann Haidenbauer**

Status of the YN interaction in chiral EFT

### **17.00 Short coffee break**

### **17:30 Wolfram Weise (coordinator)**

Round table: open issues in hyper-nuclear physics

### **19:00 Dinner at Pizzeria alla Mostra**

## Friday, Dec. 6

### **9:00 Maxim Mai**

Kaonc deuterium: theory status report

### **10:00 Evgeny Epelbaum**

Local regularization for chiral forces

### **11.00 Short coffee break**

### **11:30 Corbinian Wellenhofer**

Chiral nuclear thermodynamics

### **12:30 Lunch at Restaurant la Baracca and end of meeting**
