

Symposium in honour of Professor Jochen Wambach

FRIDAY, APRIL 16, 2021 | 14-19H CET | ZOOM

PROGRAMME

Introduction

Gert Aarts, convener (ECT* Director)
Andrea Simoni (Secretary-General FBK)
Marek Lewitowicz (Chair NuPECC)
Marcella Grasso (Chair ECT* Scientific Board)

Remembrance of David Brink

Angela Bonaccorso (INFN, Sezione di Pisa)

Scientific Talks

Peter Braun-Munzinger (EMMI)
The QCD phase diagram: new theoretical concepts and advances in experimental techniques
Arno Tripolt (University of Graz)
In-medium spectral functions with the FRG
Guy Moore (TU Darmstadt)
Photons and dileptons at high temperatures
Tetyana Galatyuk (TU Darmstadt)
Extreme and shining: What can we learn from electromagnetic radiation about the state of visible matter under extreme conditions?
Michael Buballa (TU Darmstadt)
Crossing borders with Jochen and in QCD
Sandro Stringari (University of Trento)
*Years of collaboration with Jochen at ECT**

Final words

Scientific Organising Committee
Gert Aarts, Daniele Binosi, Marcella Grasso, Marek Lewitowicz, Dirk Rischke, Dionysios Triantafyllopoulos
